Safe Harbor Statement

Some of the statements contained in this presentation that are not purely historical statements discuss future expectations or state other forward-looking information related to financial results and business outlook for 2023. Those statements are subject to known and unknown risks, uncertainties and other factors that could cause the actual results to differ materially from those contemplated by the statements. The “forward-looking” information is based on management’s current intent, belief, expectations, estimates, and projections regarding our company and our industry. You should be aware that those statements only reflect our predictions. Actual events or results may differ substantially. Important factors that could cause our actual results to be materially different from the forward-looking statements are disclosed under the heading “Risk Factors” in our annual report on Form 10-K for the year ended December 31, 2022. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, or achievements. This cautionary statement is provided pursuant to Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. The forward-looking statements in this release are made only as of the date hereof and we undertake no obligation to update publicly any forward-looking statement for any reason, even if new information becomes available or other events occur in the future.

(2) Represents repeat business in 2022 from clients having revenue in 2021 and/or 2020
WHO

We work for
Top 50 Clients

Our top 50 clients represent a cross section of leading enterprises across industry verticals.

Note: represents top 50 clients by H1 2023 revenue
Fueling B2C Sales With a Virtual Agent

Hyundai wanted to enhance their digital customer experience with an AI-powered virtual agent.

We developed a cognitive virtual agent solution that leverages thousands of data points to help customers find the right vehicle based on their specific needs.

The virtual agent drove results:
- 5,000+ conversations per day
- 76% more time spent on the site
- 28% increase in site engagement
Cooking Up Better Marketing Campaigns

Panera needed a modern marketing solution to efficiently roll out new campaigns, increase customer activity, and actively measure results.

We integrated Salesforce and Customer Hub into the legacy platform and added Marketo using MuleSoft APIs to streamline campaigns and improve analytics.

Our solution improved campaign time to market, optimized customer engagement, and helped grow revenue.
THR struggled to measure marketing campaign effectiveness, which led to wasted spend and investing in tactics with no ROI.

We outlined best practices and process improvements to Datorama and developed ROI dashboards that enabled marketers to make more-informed decisions.
Polaris Australia and New Zealand needed a new dealer portal to act as a single source of truth to align its commerce and ERP integrations.

Our Optimizely B2B Commerce headless solution streamlined the purchasing journey, provided new features and functionality, and modernized accessibility.
Customizing Credit Card Offers

The bank wanted to integrate its plug-and-play services into partner environments to expand the ways its partners offer credit cards.

We designed, developed, and tested a cloud-native API platform focused on offer management, account origination, and account servicing.

The bank now offers automated, customized embedded finance functions to its partners, increasing loyalty and improving ROI.
The cruise line wanted to decommission on-premises servers to enable mobile content access, foster collaboration, and reduce costs.

We migrated files and SharePoint sites to Microsoft 365 to give employees access to content anywhere, at any time.

3.8M FILES MIGRATED

450+ SHAREPOINT SITES MIGRATED
Customers faced long call center wait times and agents lacked a historical customer database, which made for a poor all-around experience.

We built a solution strategy utilizing AI, NLP, and automation to improve digital and in-person support channels.

Duke’s roadmap to streamlined and automated service will improve both customer and agent satisfaction.

We applied Kyriba's GL Reconciliation engine and Cash Accounting module to align data fields and streamline reconciliation efforts.
Continued Competitive Success

Large Healthcare Payor
- HC insurance portal new platform
- Competitors we beat: Cognizant, Capgemini
- MRM

Leading Fashion Designer Brand
- Commerce, Data and Analytics w/ MSO coming
- Competitors we beat: slalom, Deloitte

Global Equipment Manufacturer
- Smart CRS Blueprint/POC for Manufacturer Rental
- Competitors we beat: accenture, ThoughtWorks

Leading Financial Services Company
- System of record for licensing and registration
- Competitors we beat: accenture, slalom, Deloitte
Sustainable Sales Performance

Sales Organization Expansion

2012 → 2023
50 sellers → 185 sellers

Other Key Improvements

Sales Management Infrastructure Introduced
Compensation Plan Revisions
Marketing Investment Expansion
